About me

I love using my creativity to develop solutions for complex problems and to improve processes.

Education

Mechatronics engineering (2015 - 2020)

Tecnológico de Monterrey campus Querétaro

Research internship (Summer 2018)

University of Ontario Institute of Technology

Master of Business Administration (2020 - 2022)

Universidad Latinoamericana

Experience

Trainee (2019 - 2020) [Concentrix Catalyst]

Learn multiple coding languages and technologies.

Apigee Support Engineer (2020 - 2022) [Concentrix Catalyst]

Provide support to apigee developers with coding and troubleshooting.

Responsibilities:

- Assist with production and non production issues, through emails, chats or calls.
- Debug code from other developers.
- Automate using apigee, javascript and React js.
- Assist with queries on apigee capabilities or help on how to code.
- Monitor dashboards to prevent production issues.
- Develop documentation for users.

Frontend Engineer (2022 - 2023) [Concentrix Catalyst]

Renew the main portal of the company using ReactJS.

Responsibilities:

- Be in charge of a project, managing people to make sure that products got delivered on time and following the best coding practices.
- Develop components following Figma designs.
- Help my people and coworkers with coding issues and/or queries.
- Report to higher management about the progress on the project.
- Join calls with product owners, managers and/or developers to discuss the best ways to achieve goals.
- Develop documentation for new teammates about onboarding processes and common issues.
- Document all the developed code.
- Review and approve PRs for other developers.

Skills

ReactJS | React Native | Javascript | HTML | CSS | SCSS | Typescript | Apigee | NodeJS | Express | Redux | MongoDB | Labview | Arduino | Git | C | Spring | Python | Java | Machine Learning | Unity | Splunk | Jira | MySQL | Jenkins | Grafana | Algorithms

Additional information

- In both of my past projects I escalated quickly to manage projects by myself and gained the trust of my superiors and coworkers due to my attitude, leadership, skills and good results.
- Advanced english level.
- For more information about my projects, certificates and myself, please visit my Portfolio (not updated yet) developed with React.js at <https://juanro-pf.github.io/portfolio>
